Building Permit Fees

§ 154-5. General requirements.

A. Any person, including any partnership or group of any type or character, contemplating the erection, extension, alteration or repair, or moving or demolition of a structure included in this article; or any contemplated structural alteration, reroofing, electrical wiring, mechanical equipment, or installation of plumbing in an existing structure; shall first make application for a permit to do such in the Building Official's office. Said application shall be submitted at least 14 calendar days prior to the start of construction, or work, accompanied by the proper fee or fees as described in § 154-6. No work shall be started until said application has been approved and the appropriate permit or permits issued by the Building Official.

B. In addition to Subsection A, this article also includes special categories for which permits and fees are required; therefore, the provisions above equally apply to these special categories, where appropriate.

C. In all matters relating to the execution of this article, the Building Official's interpretations and decisions shall be binding, appealable only to the Town Council.

D. Any and all permits covered in this article may be issued only if the work to be permitted is in total compliance with the Zoning Ordinance of the Town, and any and all state and federal laws and regulations.

E. All permits required must be paid collectively. Additionally, no permit shall be issued unless all persons are present to file applications with the main permit, i.e., plumbing, electrical, mechanical, etc. All applicants shall produce a current state license as required by law.
